CONTEXT: Russian Foreign Minister Sergey Lavrov was in New Delhi on a two-day visit to India and held delegation level talks with his Indian counterpart.

TROUBLED 2020?

- The **annual India-Russia summit was cancelled** for the first time in two decades last year.
- Lavrov's earlier **comments on India's Indo-Pacific engagements and the Quad did not go down well in India.**

- Lavrov in 2020 said that “India is currently an object of the Western countries’ persistent, aggressive and devious policy as they are trying to engage it in anti-China games by promoting Indo-Pacific strategies, the so-called ‘Quad’ while at the same time the West is attempting to undermine our close partnership and privileged relations with India.”

REASONS FOR RECENT DOWNTURN IN RELATIONS

- **India Going West:** China's expansionist foreign policy forced India to shed past hesitations and actively pursue closer ties with the West, particularly the US.
- **Russia Going East:** Russia revved up its own "Pivot to the East". The most distinct results of which are markedly improved relations with China, and better ties with Turkey, Iran, and Pakistan.
- **Defence:** India has been recently diversifying its defence relations with US, Israel etc. Russia's share of Indian defense imports fell from 79 percent between 2008-2012 to 62 percent between 2013-2017.
- Trade has been one-dimensional i.e. defence based. The trade in 2017-18 was \$10.7 billion, which is far below potential in comparison to India's trade with China (\$89.7 billion), the United States (\$74.5 billion).
- **Towards Taliban:** Russia is showing inclination towards Taliban in Afghanistan while India continues to have concerns about the group.

WAY FORWARD

- It is in the vital interest of both countries to ensure that the area which relates to the **security and defence, civil nuclear energy and space** among, is insulated from mutual differences in outlook on some geo-political issues and the pressures of other powers.
- It would also be mutually beneficial for both countries to explore other areas of cooperation such as **connectivity through both land and sea as well as trade**.
- There is a need of a **free trade agreement** to augment trade.
- India should pursue and facilitate **Russia's engagement in the Indo-Pacific**.
- India must promote a mutually **beneficial trilateral cooperation between Russia, China, and India**.
- **Cooperation At Multilateral Forums:** India and Russia continue to share a common strategic rationale for their relationship.
- There are areas of convergence that can be used to improve the relationship between the two countries. For example, **both are involved in the Rooppur nuclear plant project in Bangladesh on a trilateral basis**.
- There is a need for a more "extensive Eurasian partnership involving the EAEU and China, India, Pakistan, and Iran".

- India can help Russia by providing the **much-needed workforce in sectors like agriculture and construction** without engaging in permanent settlement.
- Both countries must take advantage of policies like '**Make in India**'.
